ABOUT US

With over two decades of experience, SMART MISSIONS is a dynamic technology company specializing in low-current systems and Artificial Intelligence (AI) fields. Our commitment to innovation and excellence empowers businesses to harness cutting-edge technologies to drive growth, efficiency, and sustainability.

MISSION

Revolutionizing industries through the strategic integration of AI and low-current systems, enabling businesses to thrive in an ever-evolving digital landscape.

VISION

A future where AI and low-current technologies seamlessly enhance daily life, unlocking new possibilities and driving positive change for individuals and businesses alike.

EXPERTISE

Our team of skilled professionals offers expertise across AI and low-current disciplines. From machine learning and data analytics to electrical systems and telecommunications, we deliver innovative solutions tailored to meet the unique needs of our clients.

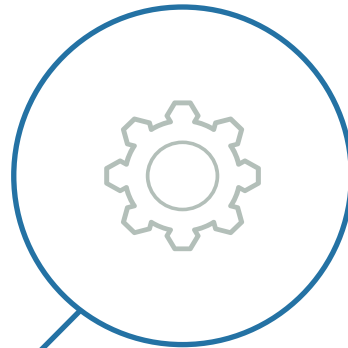

OUR VALUES

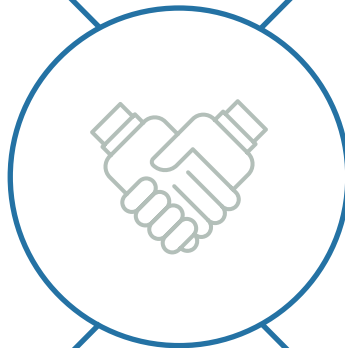

Innovation

Constantly exploring new technologies to stay at the forefront of our field.

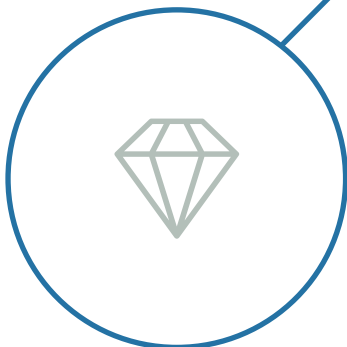

Integrity

Operating with honesty and transparency to foster trust and accountability.

Collaboration

Working closely with clients to understand their goals and develop customized solutions.

Excellence

Striving for the highest standards of quality and customer satisfaction.

Sustainability

Minimizing our environmental footprint and promoting social responsibility.

OUR PARTNERS:

We collaborate with a network of trusted partners, including technology vendors, industry experts, and research institutions, to enhance our capabilities and deliver comprehensive solutions.

OUR SERVICES

1. AI-Driven Solutions for Retail and Security

(Innovation Intelligence, Transforming Business)

Harness the power of AI to transform your business with our advanced algorithms and machine learning techniques

• AI Video Analytics for Retail Solutions and Entertainment:

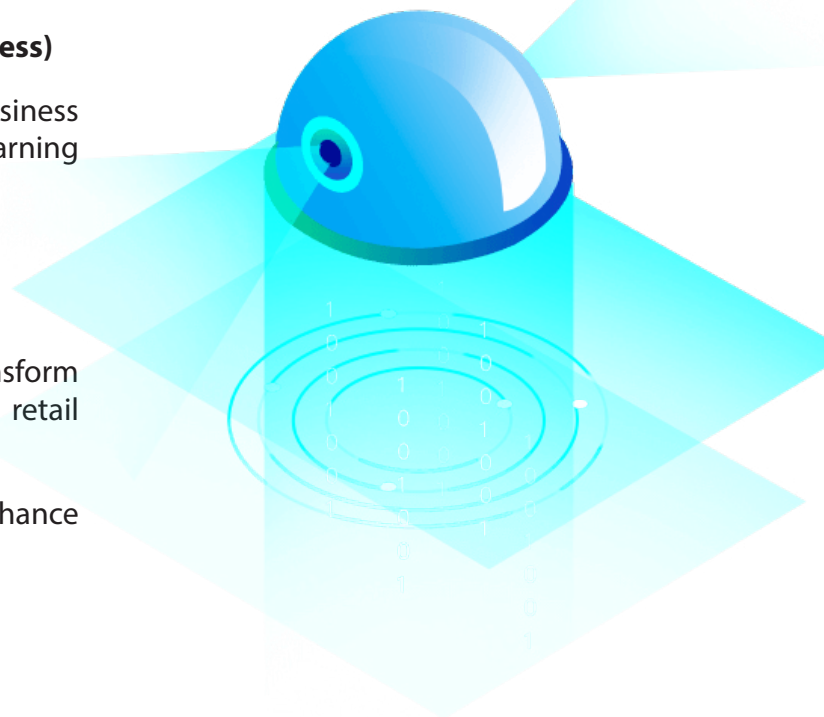

- Insightful Retailing, Smart Decisions: Transform data into actionable insights for better retail management.
- Tailored analytics that boost sales and enhance customer experiences.

• AI Video Analytics for Safety & Security

Leveraging AI technology, Smart Missions develops and integrates robust software solutions for security and surveillance.

Our scalable network-based platform offers real-time alerts, smart searches, and object detection, transforming surveillance systems into valuable business assets while optimizing processes across all sectors.

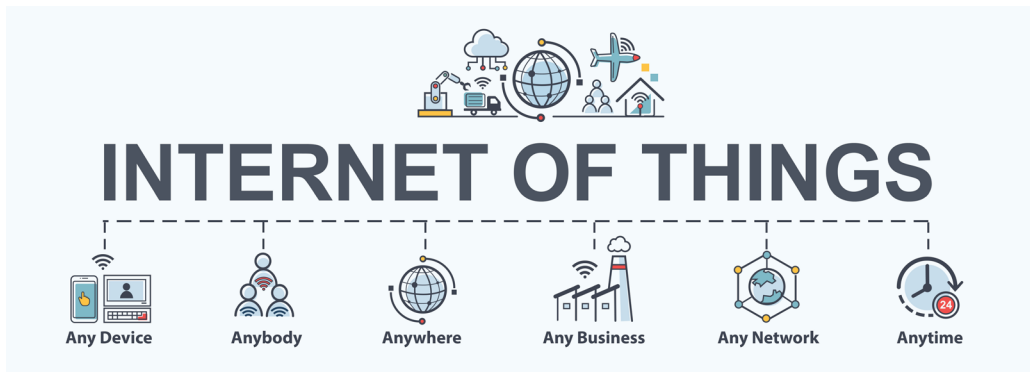

2. Low-Current Systems

(We innovate, design and build for today and tomorrow)

Optimize performance, reliability, and efficiency with our comprehensive low-current solutions.

• IoT with LoRaWAN

Leverage the power of IoT in security systems and detectors using LoRaWAN technology to enhance monitoring, efficiency, and safety. Our solutions offer robust, long-range connectivity for various applications, ensuring real-time data and proactive management

- CoWork Smart Space Solution: Unlock the Power of Space Efficiency and Optimization
- Smart Restroom Solution: Transform Your Restroom, Unlock the Benefits of Smart Technology
- Indoor Air Quality (IAQ) Monitoring Solution: Detect the Invisible to Enhance Energy Efficiency and Promote Health
- People Counting Solution for Various Applications
- Dependable People Counting for Smarter Decision-Making

• Intelligent Surveillance Solutions

- Real-Time Monitoring: Instant insights and alerts
- Seamless Integration: Fits smoothly with existing systems
- Reliable Coverage: Comprehensive protection for all areas
- Scalable Solutions: Adapts to growing needs
- Enhanced Security: Robust technology for asset protection.

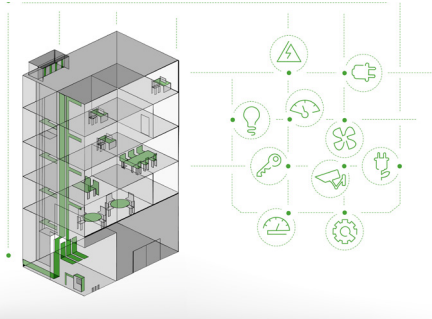

• Access Control & Time Attendance

- Advanced Access Control and Time and Attendance solutions enhance security, streamline workforce management, and ensure accurate tracking of employee hours, fostering a secure and efficient workplace environment.

• **Smart Hotel Access Solutions**

- Secure Access, Superior Comfort; Enhance guest security and comfort with our cutting-edge locking systems. Our solutions stand out with its user-friendly interface, robust security features, and seamless integration into existing hotel management systems, ensuring a hassle-free experience for both guests and staff.

• **BMS and Control Systems**

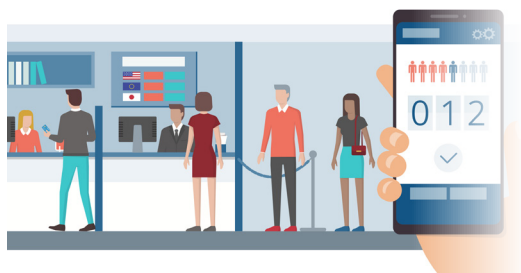

- Smart BMS and Control Systems service offers seamless integration for building management, optimizing energy efficiency and operational performance. We provide tailored solutions to ensure your facilities run smoothly, enhancing comfort and security. Reliable and innovative control systems for all your building needs.

• **Audio Visual Systems**

- Our Audio-Visual Solutions deliver cutting-edge technology for immersive and seamless communication experiences. From conference rooms to auditoriums, we provide tailored AV systems that enhance engagement and productivity. High-quality and innovative solutions.

• **Solutions:**

- Digital Signage & Interactive Screens
- LED, Videowall, Pro-Audio, Public Address
- IPTV

• **Queue Management System**

- Our Queue System Solutions streamline customer flow, reducing wait times and improving service efficiency. Designed for businesses of all sizes, our systems enhance customer satisfaction and operational productivity. Experience seamless queue management with our innovative, reliable solutions.

• Key Management System

- **Eliminate Key Loss Frustration:** Securely manage and track keys with the KeyWatcher® Touch system.
- **Configure your system with key modules, card modules, or storage lockers for personal assets.**
- **Real-Time Notifications:** Receive instant updates for key removals and returns.
- **Seamless Integration:** Integrates smoothly with various brands of access control systems.

• RFID Asset Tracking Solution

- **Real-Time Tracking:** Monitor asset locations and movements instantly
- **Automated Data Capture:** Reduce manual entry with automatic RFID scanning
- **Enhanced Accuracy:** Minimize errors with precise asset identification
- **Scalable System:** Adaptable to various asset sizes and quantities.
- **Improved Efficiency:** Streamline asset management and reduce loss
- **Comprehensive Reporting:** Generate detailed reports for better insights
- **Integration Capabilities:** Seamlessly connects with existing inventory systems.

• Security Inspection Systems

- Your Trust, Our Technology: Advanced inspection for superior security.
- Cutting-edge technology for thorough and reliable inspections.

• Sub-services:

- Under-vehicle Inspection: Detailed scanning for hidden threats.
- Walk-through & X-ray Machines: Comprehensive security screening.
- Handheld Metal Detectors: Portable and precise detection.

• High Performance Data Networking Solutions

- Data Networking and Network Infrastructure solutions ensure seamless connectivity, robust performance, and secure data transmission across your organization. We design and implement comprehensive network systems tailored to your specific needs, enabling efficient communication and data flow.

• Customized Software and Application Development Solutions

- Our Software and App Development services deliver innovative, custom solutions to meet your business needs. We specialize in creating user-friendly, high-performance applications that enhance productivity and customer engagement. From concept to deployment, we ensure seamless integration, robust security, and ongoing support, empowering your business with cutting-edge technology.

3. Consulting Services

- Consulting services offer expert guidance to optimize your business strategies and operations. We provide customized solutions to drive growth and efficiency, ensuring sustainable success. Partner with us for insightful, results-driven consulting

4. Comprehensive Integrated Systems for Diverse Environments

Our major work field focuses on designing, installing, testing, operating, and maintaining integrated system solutions for various environments, ensuring efficiency and reliability.

This includes:

- Health Care Facilities
- Educational Institutions
- Control Rooms & Data Centers
- Substations & Reservoirs
- Government & Corporate Buildings
- Hotels & Resorts
- Automotive Businesses
- Multifamily Buildings

At **SMART MISSIONS**, we are passionate about helping businesses embrace the transformative power of AI and low-current technologies. Contact us today to learn more about how we can support your digital transformation journey.
